

ATTENTION WINE BUYERS:

In an age of value based wine customers, we have premium wine at affordable prices.

As a premium, boutique winery we offer incredible prices and support services to our customers. We can fashion for you a very competitive pricing structure which combines ultra premium quality with “value based” pricing.

BobDog Wines, the highest winery in Sonoma County at 2000 feet, is nestled in the middle of *Sky Pine Vineyards*, and its 15 acres of red noble grapes, in the Alexander Valley. The heritage of six national awards will now be focused into a unique estate program with two brands: BobDog Wines at retail price points between \$12 and \$21 dollars; and *Sky Pine Vineyards*, *First Fruits*, with retail price points from \$20 and up.

Our grape customers over the years have received national awards and sold their ultra premium blends for up to \$45 a bottle. Our wines are the same quality as in the ultra premium glory days, but at the today's value based pricing.

We also offer custom bottling/private labeling of our 2009 Bordeaux blend to be available: Spring 2011.
